DETAILED ACTION

Status of Claims

1. Claim 27 is cancelled. Claims 22-26 and 28-30 are pending and currently under examination.

Rejection(s) of Record

2. All rejections made of record is withdrawn in view of the authorized Examiner's Amendment to the claims, with the exception of the double patenting rejection, see below.

Double Patenting

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Art Unit: 1648

4. Claims 22-26 and 28-30 remain rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 13-14 of U.S. Patent No. 6,753,162 for reason(s) set forth in the record.

In response to the rejection set forth in the previous office action and summarized above, Applicant states that the rejection will be properly addressed upon indication of allowable subject matter.

Applicant's submission has been considered. Until the rejection is properly addressed by Applicant, the rejection is maintained.

EXAMINER'S AMENDMENT

5. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Karen Elbing on 01/06/06.

6. The application has been amended as follows:

- Independent claim 22 now reads:

22. A chimeric receptor protein comprising:
a) an extracellular portion comprising
 i) a CD4 portion that specifically binds to gp120 on HIV infected cells, and
 ii) a projection portion that projects the CD4 domain at least 48 angstroms away from the cell membrane of a cell bearing said receptor;

 wherein the extracellular portion does not mediate HIV infection;

Art Unit: 1648

b) a transmembrane portion; and
c) an intracellular portion that signals a cell bearing said receptor to destroy a receptor-bound HIV infected cell.

- Dependent claim 28 now reads:

28. The receptor of claim 22, wherein said projection portion projects the CD4 domain at least 72 angstroms away from the cell membrane of a cell bearing said receptor.

7. In summation, claims 22 and 28 are amended.

Communication

8. Applicant is advised to submit a terminal disclaimer to overcome the double patenting rejection. Upon approval of the submitted terminal disclaimer, the claimed invention will be free of any rejections, and will be properly processed toward allowance.

9. To facilitate the processing of an allowance, Applicant is also advised to submit a new listing of claims that reflects the changes made in the Examiner's Amendment.

10. Applicant is also reminded to update the priority status of the claimed invention.

Conclusion

11. Claims 22-26 and 28-30 are not allowed because of the outstanding double patenting rejection.

12. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

13. A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until

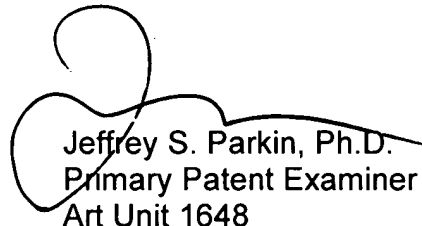

Art Unit: 1648

after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
